

What is the "Turf the Turf" Tour?

Turf the Turf hopes to inspire you to think of eco-friendly alternatives to lawns by offering a fun bike tour around Central Kelowna. There are seven stops featuring:

- xeriscape (drought-resistant) beds
- front yard vegetable gardening
- audio interview clips with the home owners.
- commentary by a tour guide and special guests

To take the guided tour, you will need:

- a bike and a helmet
- a water bottle (recommended)
- an mp3 audio device.

Please download the audio files at home before the tour. Some mp3 players will be available to borrow. People who sign up for the guided tour will be eligible to receive a discount on a bike tune-up at ChainLine Cycle in downtown Kelowna.

You can do the tour on your own by downloading the map and audio files at the project website.

What will you find at turftheturf.wordpress.com

- information about the project
- a community conversation page
- tour map and audio files
- links to sites on xeriscaping front yard gardens and more!
